Do You Dispose Of Waste Cooking Oil Responsibly?

Our Oil Collection Partner, Arrow Edible Oil Management are registered as Used Cooking Oil Collectors.

All their depots are regularly audited and meet the International Sustainability Carbon Certificate (ISCC) requirements. Arrow provides a safe, secure, regular and reliable service.

Benefits of re-cycling your used cooking oil include:

- Keeping your premises plumbing systems in top condition
- Ensuring your business is legally compliant in Waste Management
- Receiving a **REBATE** onto your Hopwells account to use against future purchases. **(20p per litre)**

By working together, we can all be proud of protecting the environment now and for the future!

Arrow can provide free of charge oil containers with lids for safe storage of the cooking oil and a specialized wheelie bin called a Fatboxx is also available. The original containers that the oil was supplied in, can also be used for returning the waste cooking oil, these are normally 20 litre drums either in plastic or tin. Rebates paid to customers are subject to change due to market fluctuations.

30 days notice will be given for any changes to the rate rebated.
