## HOW TO SAIL THROUGH THE SEASON

### **Pre-book early (from 1 Nov):**

Lock in your preferred dates in December & early January.

### **Order a little ahead:**

Build in extra cover on your top sellers (milk, cream, oils, chips, breads, desserts, soft drinks, beer/wine, disposables).

### **Check your normal cut-off times:**

They still apply.

### **Tell us your big dates:**

Parties, preorders, event menus share the peaks so we can plan vehicle space and stock.

### **Keep a back-up plan:**

Consider a small top-up order for the first week of January to ease the New Year rush.

### **Telesales & Ordering**

Taking orders any time from 1st November for December & January delivery slots.

**Phone, email or online ordering as usual. If you reach us out of hours, leave the details and we'll confirm your slot promptly.**
